Check the fuel level by holding the appliance vertically and giving the on/off switch a gentle push. If the light is glowing, the butane gas will begin to flow.

Wait approximately 5 to 10 seconds then depress the 'START' button three to five times in rapid succession. Check to make sure the cartridge is 'ON' and cartridge is completely screwed into place; then once again depress the 'START' button three to five times in rapid succession. Check to make sure the cartridge is 'ON' and cartridge is completely screwed into place. Check the fuel level by holding the appliance vertically and giving the on/off switch a gentle push. If the light is not glowing, check to make sure the cartridge is 'ON' and cartridge is completely screwed into place. Check to make sure the cartridge is 'ON' and cartridge is completely screwed into place.

Do not touch the grill; it will be hot after a couple of minutes. Clean with a damp cloth only when the appliance is not in use.

Screw the cartridge into the opening of the appliance. Do not overtighten the screws.

Do not attach appliance to your body or clothing. Place the appliance on a flat, stable surface with the grill facing upward. Clean with a damp cloth only when the appliance is not in use.
