

BaitPlate™

station

Sturdy, Economical Station for Baiting Ants, Cockroaches & Other Insects

Sturdy, economical station for baiting ants, cockroaches and other insects, the BaitPlate™ Station is the perfect application device for Rockwell Labs' baits. Excellent when bait needs to be contained and/or easily removable.

- Holds gel, granule and liquid baits
- Dual bait compartments with ramped entry - adjustable for large and small insects
- Convenient low-profile, clear design - mounts flat or vertically
- Refillable or disposable
- Comes with sticky dots for mounting, or use mounting hole for extra security
- Fits inside the D-Sect™ IPM Station for ultimate tamper-resistance
